

NEW YORK CURB MARKET

FRIDAY, APRIL 7, 1922.

COMMODITIES

Market Moves Narrowly and Irregularly and Trading Is Inactive.

Business in cotton futures continued yesterday to represent largely redemptions of old and new crop positions by local professionals without new incentive for extensive trading and the market moved narrowly and irregularly throughout the day, ending 6 points net lower to 3 net higher than Thursday's final. Under influence of Texas rains, strength of securities and Street shorts' fear of continued adverse weather over the weekend the list was bid up about 3 to 13 points in the first hour, but soon lost its gain when the South and Liverpool led the market. The English futures market opened about as expected. A fair business in the actual sales was reported.

Spinnings' takings of cotton for the week ended with last night were much smaller than they were in the last previous week, but the takeoff was 15,498 bales against 15,464 bales the last previous week. The amount of cotton brought into sight was estimated at 16,613 bales, in contrast to 15,714 for the preceding week. The New Orleans Cotton Exchange made total spinners' takings considerably lower than did the New York Cotton Exchange.

The local market for spot cotton was quiet and unchanged at 17.35 cents for middling. The New Orleans market was 12 points net lower at 15.65 cents for middling. The sales of the actual were 541 bales.

WHEAT, S. S. REPORT

Firmness in Liverpool Helps Rise—Omaha Offers More Shipments.

Chicago, April 7.—Wheat averaged a little higher again to-day, helped by firmness in Liverpool. The market closed unsettled at a gain of 1/4 to 1/2 c. net, with May 13.10 to 13.15 c. net, and July 13.15 to 13.20 c. net. Oats finished unchanged to 1/4 c. higher; oats unchanged to 1/4 c. advance and provisions from 1/4 c. decline to 1/4 c. advance.

Cautiousness by the bulk sellers of wheat regarding the Government report was apparently unwarranted, for a slightly bearish construction of the report was general when documents became public after the close. The view most widely taken was that crop conditions had improved since the statistics were gathered. Further offers of wheat shipments from Omaha to Chicago, together with sales of wheat to go to store here, led to somewhat of a setback in the late dealings.

Estimates were current here that 500,000 bushels of hard winter wheat had been taken at Montreal at 8 cents over July for last half of August shipment to Europe. One report put the amount high as 1,000,000 bushels. It was said also that Buffalo mills were bidding close to the market at Minneapolis for dark No. 1 northern.

Commission house selling weakened lard and ribs. An advance in pork was chiefly nominal.
